05: Jigsaw Story, all the pieces complete ISSF

NARAWIT PRATUENGSUKPONG

Let's look at how each piece of jigsaw contribute to this fair and why cannot ISSF be with only a missing piece. Certainly, this ISSF 2020 jigsaw cannot be complete without you.

"Which piece of jigsaw are you?"

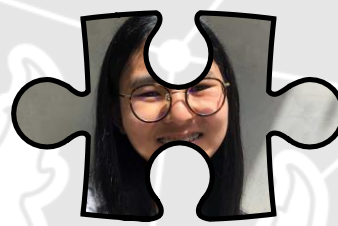

Worarit Panmook

Since I'm the President of the Student Committee, I have to manage and control the overall picture of ISSF. Therefore, I try to take as many responsibilities as I can. As I'm the head organizer of the Venue team, my main duty is to manage place and building. I have to cooperate with many other teams such as the Banquet team and the Food & meals team to plan the venue layout for Welcome Dinner. If my team does not exist, it will bring such a big impact to venue diagram of several activities.

Matikant Vatrasresth

I'm the head of the Banquet Organizing team. This team has to order queuing of the shows and coordinate with many other teams like Performance Show Organizing team, Venue team, Anchorperson team, etc. I'm also the Deputy head of the Registration team and the secretary of the Nursing team. My role is vital, as each team might have trouble coordinating without me.

Wachirawit Nisapruksachart

I am a photographer and a video editor. I think it is important to bring people from different countries to be closer by having them in the same photo. Also, I helped to keep their good memories at ISSF 2020.

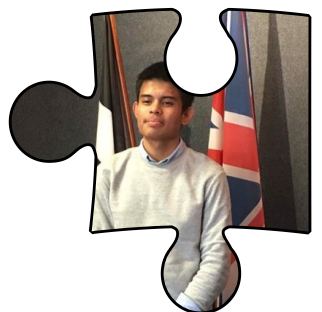

Janjira Suwankareekul

I'm a part of the Photography team and the Newsletter team. This piece of jigsaw will collect all the impressive memories in ISSF 2020 so that we will recall those experiences again when looking at those photos in the future.

Natthanan Kongchu

Besides being a participant, I am also a co-director of KVIS dance performance and a performer in Thai dance and Ballroom dance. I, being a part of the entire show, could deliver the fascinating show that will convey the other side of KVIS students' passion and capabilities apart from academic performance.

Wipasita Worawitwattana

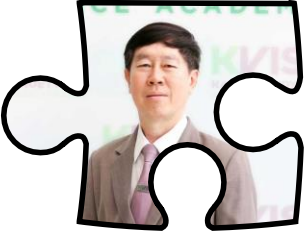

If I were to assemble the picture of ISSF 2020, I would act as the first and last piece of this puzzle. As the head of the Souvenir team, I would have a duty to make the first impression to participants. Also, as a member of the Report and Evaluation team, I am responsible for completing this event and act as an advisor to improve the next jigsaw.

Napat Saokomut

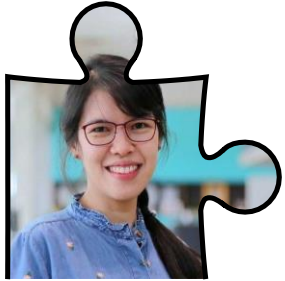

I'm a member of Media Crew carrying out three main duties. I am the head of the Content team, a member of the Photography team, and the website developer. To compare myself to a jigsaw, I would be made of clay, since this piece would be able to change its shape to fill in any space, as in case any other piece is missing.

Dr. Phornsant Lertwitthayawiwat

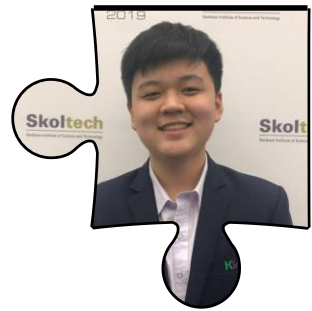

My job is about everyone's well-being and transportation throughout this event. This is related to both KVIS and our guests. I will do my best so that teachers and students can fully participate in ISSF 2020.

Nareekarn Nakhamdee

I take care of the Cultural booths, Welcome Dinner, and Farewell Party. I also look after the decoration of the event's venue. If I were a jigsaw, I would be its surface having all the colors and patterns that make all the pieces of jigsaw beautiful once assembled.

I'm in the ICT team taking care of electronic hardware, broadcasting system, and light & sound. I am glad that I have prepared the ICT system to help the works in this fair flow more smoothly. Besides, I assembled the observatory dome for the Stargazing Activity. I wish you all enjoy!

Siriwut Siripromsombut

I am the Head of International students' affairs and Deputy head of the Scientific and Cultural Excursion team. Apart from one of the main purposes of this science fair that is to exchange knowledge in science and technology, the cultural and social exchange is also important. The excursion will let you learn science and culture. We will help you learn Thai cultures and know each other more. I think this science fair will not be fun if we do not have buddies, don't you?

Natchanan Poolsawad

In addition to being a participant, I take part in Thai dancing "Rum Wong," "Rum Kratop Mai," and a Ballroom dancing. Without me, the performing team would not be completed. And I am proud to present the aesthetics of Thai culture via these shows.

Sirikan Kanjanaruttanasadudee

Your happiness is my major concern. When you eat, sleep, or even sick, it's my responsibility to serve you well. From selecting the menu, arranging the accommodation, and nursing, I have prepared and worked to the best for you. This piece of jigsaw cannot be missed as it is the basic need for everybody.

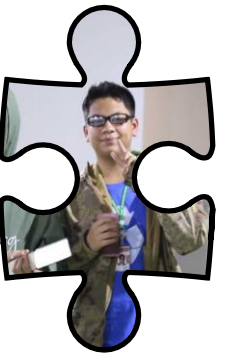

Thongbai Anuchorn

Being a sanitation staff is the same as being another host, just like teachers, students, and security guards. We have to welcome the guests by making the venue clean and look good so that all the participants can use the space conveniently, and we have to do it with full of gladness in our hearts.

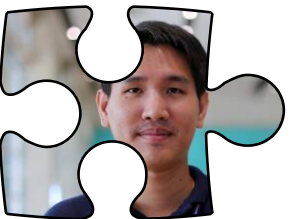

Photsawee Faengpong

I will play Thai music at the Cultural Booth, lead the Presentation session, design the work for the Presentation Organizing team, interview the participants, and coordinate with other students in this science fair. I think this piece of jigsaw will help to join with others more firmly, creating a better work for everyone.

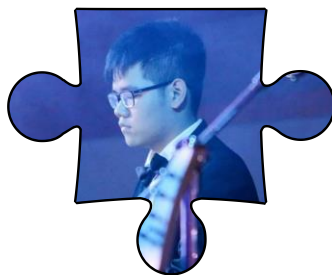

Natthawut Lertsrisuwattana

I am one piece of jigsaw that takes care of the utilities of this fair. My responsibilities include the security and cleanliness of the venue as well as the vehicles that will be used for transportation of the attendees and the Scientific and Cultural Excursions.

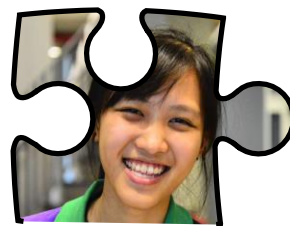

Supakarn Yenjaichon

I am a singer in the KVIS vocal unit and the conductor of KVIS ensemble that will perform in this ISSF. I will entertain people with the music that they will absolutely never forget!

Pannawich Tangkitsiroj

I'm in charge of the Recreational Activity "Coffee time at VISTEC." I believe that science fair is not just about science, but my activity will let everybody relaxed and have fun together..

Punpitcha Pasit

I'm the head of the Performance Show Organizing team. My role is to organize the order of the shows. If this fair is without me, the sequence of the party will be messed up.

Touch Sungkawichai

I am the President of Student Organizing Committee of ISSF 2020. My role is to support, organize the work, and promote coordination between each group of students. I would visualize myself not as a jigsaw piece, but the guide that tells people how to arrange themselves to form the picture of this ISSF.

Salisa Apiwatgaroon

My role is the main emcee for the Opening Ceremony, the Farewell Party, and the introduction part of the briefing. I am also the cellist of KVIS ensemble. A picture wouldn't be completed even if a piece of jigsaw is missing. I, as a small part of it, would do my best to fulfill my role for the completion of the beautiful picture known as ISSF 2020.
