# Opening Ceremony: the sound of success

Bang, bang, bang ...

The majestic sound of Sabat Chai Drum indicated that the 16<sup>th</sup> International Students' Science Fair has officially started here in Thailand.

Yesterday morning, the Opening Ceremony of ISSF 2020 began with the welcome message from the Chairperson of KVIS Governing Board, Dr. Pailin Chuchottaworn, followed by the Report from Dr. Rachain Kosalavit, Principal of KVIS. Afterwards, Dr. Khunying Kalaya Sophonpanich, Deputy Minister of Education, was invited to deliver her opening remarks and declare the official opening of the fair by beating Sabat Chai Drum, which represents a good fortune and an accomplishment in Northern Thailand culture. Immediately after, Mr. Worarit Panmook, President of the Student Committee, gave all attendees his welcome speech. Two opening performances, 'Sabat Chai' drum dance and a cappella song of "Imagine," were then showed. After that, the Keynote speaker, Assoc. Prof. Dr. Suchana Chavanich, shared her experiences in the Arctic and Antarctica. Finally, the ceremony ended with two students' project presentations. This completed the Opening Ceremony of the fair that sparks the spirits of the attendees to "Shines and enlightens the world," as Dr. Chuchottaworn proclaimed.

After being enlivened by the Opening Ceremony, all the participants presented their projects at the Poster Exhibition Hall, tightly packed with hundreds of thought-provoking and informative Physics, Chemistry, Biology, Mathematics, Computer Science, Engineering, Materials Science, and Environmental Science projects. These researches were conducted to help solve and investigate the different phenomena that hit and impact

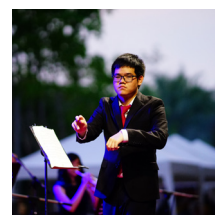

## Poster Presentations

both our lives and the world we live in. With participants wandering around and sparking fascinating discussions, the venue became even livelier and more proactive. All the participants and guests found every presentation to be excellent, inspiring young scientists to improve their skills and knowledge even further.

# Welcome Dinner, Welcome the newcomers

Soon after the impressive poster project presentations, all the participants were refreshed and energized at the Atrium during the festive Welcome Dinner all organized by KVIS and VIS-TEC. The area was filled with dining tables and stalls where appetizing foods and beverages of different kinds ranging from renowned local foods such as Som Tum (Thai papaya salad) and Pad Thai to international dishes that were made in Thai-style like pizza, sushi, and steak, providing a different texture even to the natives. While everyone was enjoying diverse Thai delicacies, our performers lightened up the night with their various songs, mesmerizing dances, and spectacular shows that could not be found in any other country including Thai martial arts (Muay Thai), Thai dances, and Thai music. Meanwhile, the other parts of the shows are acts familiar to all internationals such as cover dance and folk music. These performances brought the exciting and friendly atmosphere to the crowd. All throughout the dinner party, participants were able to relax from the previous session and have a memorable experience.

## Interview

*Yuya Sango*  
*Ritsumeikan High School*

The poster presentations were very nice. I got a lot of knowledge about science. I'm interested in computer science, but those other topics are really nice too. I'm a bit tired because I'm standing like that. The dinner was awesome, and the dance was very fun.

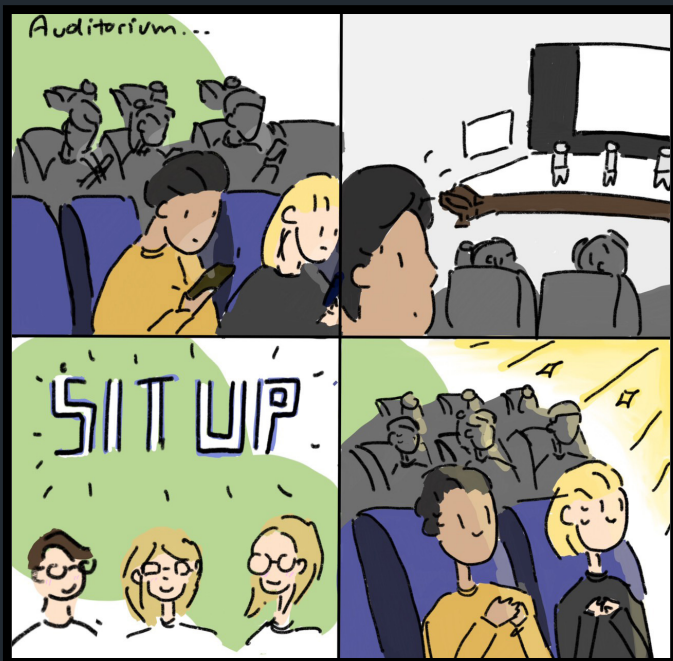

*Punpom Sukjuntra*  
*Demonstration School of  
Prince of Songkla University*

The opening ceremony was fantastic. There were so many shows about Thai cultural performances and other performances about cover dance and folk song. For the welcome dinner, there was a variety of food from different parts of Thailand such as Somtum, Pad Thai and other foods.

*Monyroth Rith*  
*New Generation School  
Sisowath High School*

It was quick. I got a bit nervous, but it turned out ok. The jury made a joke, so that made me comfortable. The more you talk, the more bearable it gets. And the party, it's fun. We have something the same at our party, so this feels very familiar and fun.

## Game Winners

Here come our six prize winners

Vania Hapsari  
Priyambodo

Nuraini  
Rahmadhani

Keisha Imtiyaz  
Huda

From Budi Mulia Dua International High School, Indonesia

Chak Hei,  
Jeremy Lee

Hoi Yeung  
Tsang

Tye Chu

From G.T. (Ellen Yeung) College, Hong Kong
